Dear BHVA Homeowners,

As most of you are aware, there was a structure fire on February 12, 2021, on Andrews Way. The Cheshire Volunteer Fire Department (CVFD) responded quickly and worked diligently to extinguish the fire. Attached is a letter from CVFD addressed to the BHVA Board and the community that we would like to share with you.

The Board is very grateful for the dedication and responsiveness of this hard-working volunteer group. Often time we take what they do for granted and it takes an event like the one which happened in February to remind us how fortunate we are for the men and women who volunteer their time and talents to making sure that the rest of us are safe and secure.

In recognition of all that they have done and will continue to do for this community, we are sending CVFD a donation on your behalf. We encourage you to show your support by giving a donation as well.

BHVA
