

ROSEPARK GOLF CART AND SERVICE ROAD RULES (updated 8/28/26)

GOLF CARTS

Carts can only be driven on Rosepark's streets and on the designated service road which starts at the right of light pole #13 off Lakeview Way as described below.

- Cart parking is at the lakefront ONLY in the area at the end of the service road, between the boat dock access ramp and the kayak access ramp and near the shed. Do not block access to the ramps.
- For those with a disability or with a qualifying medical condition, carts may be used to access the common amenities such as the firepit, boardwalk or the beach.
- The stoned pathways are designed only for walking access to common areas, not for golf carts.
- Children should drive golf carts only when accompanied by an adult. Guests driving golf carts need to be informed of this policy, and instructed to drive at a safe speed.

These rules are to minimize property damage and to have respect for other residents' space.

GENERAL ACCESS ROAD USE

This is the stoned road located on the West side of Rosepark, along the hotel property. It is primarily used for golf carts and some utility work vehicles, but it is not a road for regular auto use.

On occasion, members may use this road to load or unload items from a vehicle (eg. for their boat or a gathering at the picnic tables).

Parking should be limited to less than 30 minutes and owners must be in proximity of the vehicle at all times. Anything more time than that requires a pass from Crofton.

Vehicles must NOT be on the lawn nor block passage by other vehicles.
