# WOODBURY PLACE - APPROVED PLANT LIST

Dear Homeowner:

This is a list of plants that the Landscape Committee has prepared to help you choose plants appropriate for your landscape. We encourage you to consult this list if: 1) the HOA is removing and replacing plant material due to the dead, dying or diseased condition of existing plants in your landscape, and a replacement is needed; or 2) you are planning new landscape plantings at homeowner's expense. (Just as a reminder, any changes to the outside of your home, including landscaping, require a variance approved by the Board.)

For each plant, the list includes common name, botanical name, size at maturity, growth rate, growing conditions, care assessment, deer resistance, pruning guidelines and the color of needles, leaves, flowers and fruit.

Most of the plants listed are already in our landscape so you can see them in situ. A house number, berm or island location is indicated in parentheses after the plant name. This is the location where a specimen of the plant can be seen. Some of the plants listed are not currently in our landscape but are worthy of consideration. These are marked with an *. There is also a list of plants that are considered inappropriate for our Woodbury landscape.

This list is not comprehensive and may change over time.

## PLANTS NOT APPROPRIATE FOR OUR WOODBURY LANDSCAPE

Willows of any kind
Ornamental grasses of any kind
Blue Spruce or Dwarf Blue
Spruce
Emerald Green Arborvitae
All ground covers
PJMs
English Yew (not deer resistant)
Hicks yew (not deer resistant)
Japanese yew (not deer resistant)
Boxwood (removed due to Boxwood Moth susceptibility)
Hydrangea (removed due to deer damage)

# WOODBURY PLACE - APPROVED PLANT LIST

Revised 11/2025

## EVERGREEN SHRUBS WITH NEEDLES

1

Boulevard Cypress (51; street side)
Chamaecyparis pisifera 'Boulevard'
12' x 8' - medium growth rate
Full sun; loamy, well-drained soil Easy care;
deer resistant Easy to prune; Blue

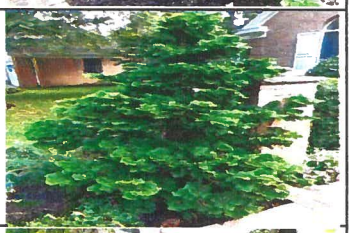

2

Hinoki Cypress – dwarf (7)
Chamaecyparis obtuse 'Nana Lutea'
4' x 4' - very slow growth rate
Full sun; Moist, well-drained soil
Easy care; deer resistant
Easy to prune; deep green

3

Hinoki Cypress (30; 67)
Chamaecyparis obtuse 'Nana Gracilis'
6' x 4' - Moist, well drained soil
Easy care; deer resistant
Easy to prune; deep green

4

Russian Cypress (Arborvitae)
(between 66 & 67)
Microbiota decussata
12" x 15' - medium growth rate
Full/part sun; well-drained soil
Easy care; deer resistant
Easy to prune; bright green; bronze in winter

5

Spreading Juniper (4; island at 51-56)
Juniperus x pfizerina
5' x 10' - slow growth rate
Full sun; tolerant of heavy soil
Easy care; deer resistant
Easy to prune; blue, grayish green needle

6

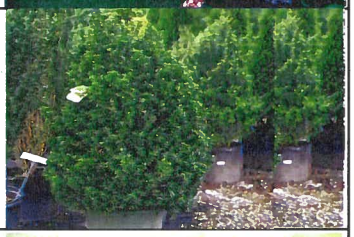

Dwarf White Pine (49; 66) Pinus strobus 'Nana'
7' x 6' - medium growth rate Full sun/ some shade;
fertile, well drained soil
Easy care; deer resistant
Easy to prune; bluish green

7

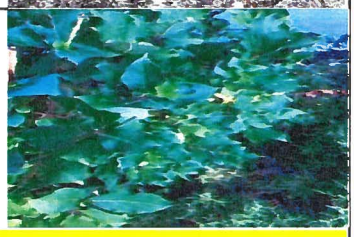

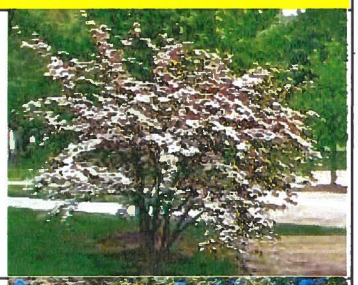

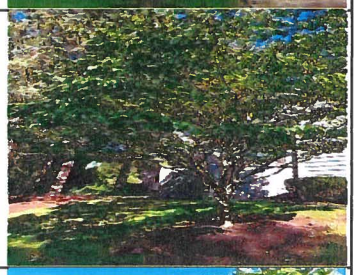

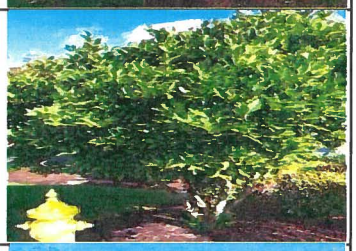

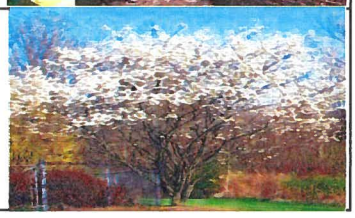

*Dwarf Mugo Pine - Pinus mugo 'Mops'
3' x 3' - slow rate of growth
Full/part sun; deep, moist loamy soil
Easy care; deer resistant
Medium to dark green

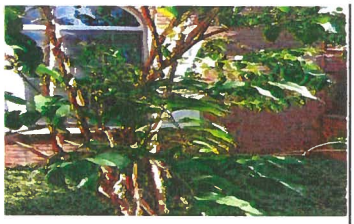

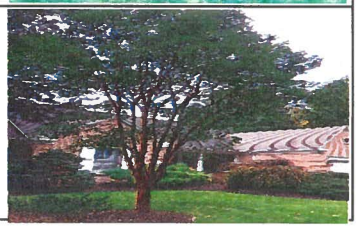

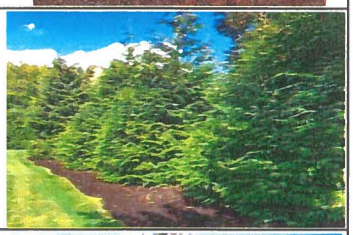

| | | |
|---|---|---|
| 8 | Bird's Nest Spruce (9)<br>Picea abies 'Nidiformis'<br>4' x 4' - slow growth rate<br>Full/partial sun; average soil if moist<br>Easy care; deer resistant<br>Easy to prune; dark green |  |
| | **EVERGREEN SHRUBS WITH LEAVES & FLOWERS** | |
| 9 | *Mountain Laurel- Kalmia latifolia,<br>broadleaved evergreen shrub in the heather family,<br>deer resistant. Blooms late spring & early summer<br>7-15' tall & spreads to 7-15' at maturity<br>Shade tolerant, like moist well drained<br>acidic soil. Prune once flowers fade. |  |
| 10 | Ilex Crenata (island across from 55)<br>Japanese Steeds Holly<br>Alternative to Boxwood<br>Densely branched evergreen shrub with pyramidal<br>form. Lustrous dark green foliage. Deer resistant.<br>6-8 ft. tall, 5-6 ft. wide |  |
| 11 | Inkberry-(14;48) Ilex glabra, Alternative to Boxwood<br>**5-8' tall, slow-growing. Full sun, acidic moist soil with**<br>good drainage. These plants have both male & female<br>**flowers, so plant both varieties if you want the plants**<br>to produce berries. Upright-rounded, stoloniferous,<br>broadleaf evergreen shrub in the holly family.<br>**Deer resistant, but not deer proof**<br>Glossy green leaves; white flowers |  |
| 12 | *Dwarf cotoneaster-Cotoneaster apiculatus (61)<br>'Tom Thumb' or 'Little Gem'<br>12" x 3' - Slow rate of growth<br>Full/part sun; moist well-drained soil but adaptable<br>Easy care; deer resistant. Easy to prune;<br>dark glossy green leaves; pinkish flowers; red berries |  |
| 13 | Pieris-(23; 68) Pieris japonica, several varieties<br>9' x 6' - slow growth rate<br>Partial shade; dappled sun; moist, acid, well-drained<br>soil new growth Easy care; deer resistant Easy to prune;<br>glossy bronze; green in summer; white or pink flowers |  |
| 14 | Rhododendron (67) (formerly R. roseum)<br>8' x 8' - medium growth rate<br>Sun/part shade; moist, organic-rich, well drained soil<br>Easy care; deer will eat flower buds in some locations<br>Easy to prune; carefully remove blossoms when faded<br>Dark green leaves; bright pink flowers |  |

| | | |
|---|---|---|
| 15 | Rhododendron (island after bridge)<br>Rhododendron catawbiense 'Cunningham White'<br>4' x 4' - medium growth rate<br>Sun/part shade; moist, organic-rich, welldrained soil<br>Easy care; deer will eat flower buds in some locations<br>Easy to prune; carefully remove blossoms when faded<br>Dark green leaves; pink buds open to white |  |
| 16 | * Rhododendron (dwarf)<br>Rhododendron yakusimagnum 'Yaku Princess'<br>3' x 3' - medium growth rate<br>Sun/part shade; moist, organic-rich, well drained soil<br>Easy care; deer may eat flower buds in some locations<br>Easy to prune; carefully remove blossoms when faded<br>Dark green leaves; light pink buds, white flowers |  |
| | **DECIDUOUS SHRUBS WITH FLOWERS** | |
| 17 | Fothergilla (68)<br>Fothergilla gardenia<br>3' x 3' - slow growth rate<br>Full/part sun; well-drained soil<br>Easy care; deer resistant. Easy to prune; green leaves<br>in summer, brilliant yellow, orange, scarlet in fall;<br>white bottle-brush shaped flowers, honey scented |  |
| 18 | *Common Lilac<br>Syringa vulgris, many varieties<br>15' x 12' – medium growth rate Full sun; Neutral soil,<br>supplement with peat. Medium care; deer resistant<br>Prune as needed; flowers should be cut off when faded<br>Dark green leaves; lilac flowers; very fragrant |  |

| | | |
|---|---|---|
| 19 | * Korean Lilac (46,32)<br>Syringa patula 'Miss Kim'<br>6' x 6' - slow growth rate-Full/partial sun;<br>loose, well-drained soil. Medium care; deer resistant<br>Prune after flowering; dark green leaves;<br>lavender to ice blue flowers; fragrant |  |
| 20 | Korean Spice Viburnum (65, rear) Viburnum carlesii<br>Full to partial sun; well-drained, slightly acid soil<br>Easy care; deer resistant<br>Prune after flowering if needed; dull green leaves in<br>summer turning wine red in fall; flowers pink<br>in bud opening white; very fragrant |  |
| 21 | Doublefile Viburnum (57)<br>Viburnum plicatum var. tomentosum<br>8' x 9' medium growth rate<br>Full/partial sun; demands moist, welldrained soil;<br>will not tolerate clay soil Medium care; deer resistant<br>Prune to control ratty appearance; can be pruned<br>to 12" from the ground to rejuvenate. Green leaves turning<br>purple in the fall; white flowers; cascading habit of growth |  |

| | | |
|---|---|---|
| 22 | Viburnum Arrowwood (island at 1-4) Viburnum dentatum<br>8' x 6' or larger - medium growth rate<br>Full/partial sun; adapts to various soils Easy care;<br>deer resistant. Prune to restrict getting out of bounds<br>Dark green leaves turning yellow to reddish purple;<br>creamy white flowers; dark blue berries; loved by birds |  |
| 23 | Viburnum Allegheny (electric box at 67)<br>Stately, richly textured shrub with deep green leaves<br>that are practically evergreen most winters.<br>Spring white bloom.<br>Full to partial sun; Deer resistant |  |
| 24 | Weigela florida,<br>several varieties 6' x 9' - medium growth rate<br>Full sun; well-drained soil; very adaptable<br>Medium care; deer resistant, Prune after flowering to<br>keep in shape Medium green leaf;<br>white, pink or red flowers |  |
| | **ORNAMENTAL FLOWERING TREES** | |
| 25 | Dogwood (14, side)<br>Cornus florida Rutgers hybrid, 'Stella Pink' & 'Stella White'<br>20' x 15'- medium growth rate. Partial shade<br>- acid, well-drained soil with sufficient organic matter<br>Easy care; deer resistant. Occasional discrete pruning<br>when mature The Rutgers hybrids are not susceptible to<br>anthrocnose disease. Dark green leaves in summer, red to<br>purple in fall; pink or white flowers depending on variety |  |
| 26 | Kousa Dogwood (36, side) Cornus kousa<br>20' x 20' - slow growth rate<br>Full/partial sun; well-drained soil w/ organic matter.<br>Easy care; deer resistant. Occasional discrete pruning<br>when mature Dark green leaves in summer, red to<br>purple in fall; creamy white flowers;<br>red fruit (can be messy when it falls) |  |
| 27 | Star Magnolia-(small: 45; island at 36-39) Magnolia stellate<br>20' x 15' or larger - slow rate of growth Full sun/light shade;<br>moist, deep, acid soil supplemented with peat<br>Medium care; deer resistant. Occasional discrete pruning<br>when mature and maybe cabling large limbs. Dark green<br>leaves in summer often yellow to bronze in fall;<br>white flowers; fragrant |  |
| 28 | Serviceberry (4)- Amelanchier arborea<br>25' x 20' - medium rate of growth<br>Full/part sun; many types of soil<br>Easy care; moderately deer resistant, Rarely needs pruning<br>Medium to dark green leaves in summer; yellow,<br>apricot, orange, red in fall; purplish black berries |  |

| | | |
|---|---|---|
| 29 | Seven-sons tree (30) - Heptacodium miconioides<br>20' x 10' - slow growth rate<br>Sun to part sun - average soil<br>Easy care; deer resistant - Requires no pruning<br>Green leaves; white flowers; peeling bark |  |
| 30 | Styrax - American Snowbell (30) Styrax americanus<br>8' x 6' - Medium growth rate<br>Full or part shade; acid, well-drained soil<br>supplemented with peat moss or organic matter<br>Easy care; deer resistant - Easy to prune<br>Bright green leaves, white bell-shaped |  |
| | **ORNAMENTAL NON-FLOWERING TREES** | |
| 31 | Japanese Maple (18, rear) Acer palmatum<br>25' x25'+, slow rate of growth Dappled shade; moist,<br>high organic matter, well-drained soil<br>Easy care; deer resistant-Occasional discrete pruning when<br>mature Green or purple in summer becoming bronze,<br>purple or red in the fall |  |
| 32 | Japanese Maple (small specimen tree) (11, 63, 64)<br>Acer palmatum dissectum 8' x 8'<br>Slow rate of growth Full/partial sun; moist, high organic<br>matter, well-drained soil, Easy care; deer resistant<br>Occasional discrete pruning when mature. Green or<br>purple depending on variety<br>(green leaf varieties turn yellow-gold to red in fall) |  |
| 33 | Paperbark Maple - (66) Acer griseum 30' x 15'<br>Slow rate of growth<br>Full sun; well-drained moist soil but is adaptable<br>Easy care; deer resistant, Occasional discrete pruning<br>when mature Bluish green leaves in summer<br>changing to bronze or russet-red in fall |  |
| | **EVERGREEN TREES** | |
| 34 | Swiss Stone Pine (island at 57-62) Pinus cembra<br>40' x 25' - slow rate of growth<br>Full sun; well-drained loamy, slightly acid soil<br>Easy care; deer resistant<br>Rarely needs pruning; dark green needles |  |
| 35 | Western Arborvitae (50, side)<br>Thuja standishii x plicata 'Green Giant'<br>70' x 25'- fast rate of growth, easy care<br>deer resistant (so far). No pruning necessary<br>but a light trim any time of year will encourage<br>dense growth Green in summer, slightly bronzy in winter |  |
| 36 | * Chinese Juniper<br>2-40' tall x 15-20' wide<br>Soil: moist, well drained - Bloom time=Spring<br>Yellow to bronze flower(no ornamental value) |  |
