

# Logans Run Homeowners Association

## Addendum to Published By-Laws

January 14, 2021

### Over-Sized Trailers

Large vehicles such as 18-Wheelers are prohibited from coming into our Community.

Homeowner should alert Carriers and ensure that they load any deliveries onto smaller vehicles.

Homeowner may be responsible for a Carrier's damage to Community property.

### Garage and Driveway

Parking of motor vehicles, motorcycles, watercraft, campers, trailers, hitches, etc. on lawn is prohibited.

Only use your garage and driveway to park vehicles.

An acceptable option where additional parking space may be needed (and off the grass), could be to extend the driveway and/or put in a permanent landing pad on the side of the house.

**Caution:** If a homeowner should pursue this option, they are solely responsible to ensure that property lines and any permits required by the Town of Greece are met. Further, ensure that there are no underground utilities that may be compromised.
