

## V. ENTRY DOORS

Replacement of the unit entry door must be approved style and of solid core construction. Painting of entry doors is the responsibility of Linden East.

Before replacing the unit entry door, a unit owner must submit a variance request for approval. Variance request forms are available from the managing agent. Allow at least one month for the variance request to be approved. Written notification will be mailed TO THE UNIT OWNER. No work should be done prior to receipt of written approval. (See Rules & Regulations, section XVII)

### Approved Door Styles or Like for Like

## XV SCREEN/STORM DOORS

Before making any changes to the outside of a unit, including the addition or replacement of a screen/storm door, a unit owner must submit a variance request for approval. No work should be done prior to receipt of the approved variance request. Allow at least one month for the variance request to be approved. (See section XVII.)

The screen/storm door must be white in color.

The screen/storm door must be an approved design (see diagrams).

The screen/storm door must be of metal construction, vinyl covered wood core, or metal covered wood core. Approved Styles
