So, your lawn is back from a long winter season and prematurely trimmed. While this scenario isn't typical, it can happen and the return of that stunning look may take the remainder of the season.

Although you have moved to an HOA where some maintenance around your home may be included like Lawn mowing, admittedly, some things are just better done by yourself like mowing the lawn.

In an effort to both minimize dissatisfaction and provide individual control over the look of your lawn, the Board has established a DO NOT MOW LIST. The list provides for Homeowners who wish to join to be excluded from any mowing of their lawn. It is an all or nothing decision.

The list will be sent out annually for the upcoming Spring season and it will be shared with the Landscape Contractor for adherence by the crews and staff in the performance of their work.

By signing and submitting this document you are accepting responsibility for all mowing of of your lawn.
